

## BRIXTON KEPS - ALPA BLOCK X C MP MESH CAP - BRNT HENNA

The Alpha Block Crossover MP Mesh Cap is a medium profile, structured 5-panel cap featuring recycled materials which help to leave a lighter carbon footprint. Its visor is constructed from Bureo's NetPlus® materials, sourced from discarded fishing nets to help prevent harmful plastic pollution from entering the ocean. The hat also includes details like a merrowed edge embroidered patch and a curved bill. A moisture wicking sweatband helps keep the sweat off your brow so you can focus.
