STETSON®

SINCE 1865

STETSON HATT - YESCOTT TRILBY RAFFIA NATUR

STETSON - SINCE 1865

The raffia is made from 100% raffia palm straw. The lightweight natural fibers are first bleached and then dyed over. This creates the interesting color effect of the material. The classic raffia border is preferred for straw hats. It gives summer headwear its characteristic look and is very comfortable to wear due to its light weight. One fold and two pleats provide the trilby with lively, cheerful charm; it's exciting and yet elegant. The flat crown and small brim enhance the design with a modern, athletic touch. This model can be combined with a wide variety of looks and is always in style.
